

Time Medical Opened Silicon Valley Office

February 27 2022 - Time Medical held a small-scale opening ceremony (due to the restriction of the COVID pandemic) at its Silicon Valley Office in the United States. Over 10 invited shareholders and Silicon Valley investors attended the ceremony, including former CEO of SMIC, former partner of Vivo Fund, Chairman of Palo Alto Advisors, general manager of ZGC Venture Capital, Chairman of Zhejiang Chamber of Commerce, President of the Association of Chinese Engineers in Silicon Valley, and President of Global Green Development Alliance, etc.

Time Medical established this U.S. office as its R&D center in the San Francisco Bay Area. On the opening day, Professor Ma shared the Company's US business expansion plan as well as IPO plan to guests. He thanked all attending shareholders for their support to the setting up of TM Silicon Valley office and showed give them a tour of the product showroom and R&D laboratory. Dr. Gao, CTO of Time Medical introduced the high-temperature superconducting radio frequency and magnet technology, as well as the HTS RF products to the guests, followed by Marketing Director, Alec Leung to introduce the 3B (Baby, Breast and Brain MR) products in the showroom to the guests.

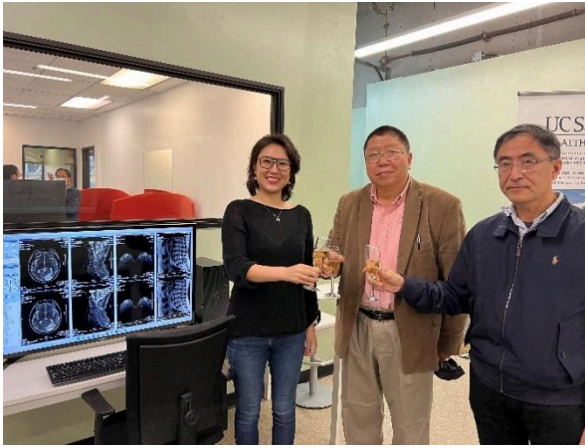

The opening of Time Medical Silicon Valley Office will accelerate the company's expansion in the U.S. and Latin American markets and lay a solid foundation for the company's IPO.
